

Genetic Testing is Important for Parkinson's Disease

PD GENERation is a flagship initiative that offers free genetic testing and genetic counseling for people with Parkinson's disease (PD). Participating and contributing your genetic data, DNA and blood gives you the opportunity to:

better manage your disease in the future

help scientists in their journey to advance understanding of PD

improve PD care and research

accelerate enrollment in clinical trials

aid in development of improved Parkinson's treatments and personalized medicine

Help Us Change the Course of Parkinson's!

Better Lives. Together.

For more information, please contact us at **Genetics@Parkinson.org** or visit **Parkinson.org/PDGENERation**.

You can also call the **Parkinson's Foundation Helpline** at **1.800.4PD.INFO (473.4636)** to speak with a Helpline specialist in either English or Spanish. The Helpline is open weekdays from 9 a.m. to 8 p.m. ET.
