

NEW!

Lightweight Trocars for Patients of Every Age

KARL STORZ trocars and cannulas represent the ideal reusable surgical solution. And our NEW lightweight trocars are available for pediatric as well as adult patients. Every KARL STORZ trocar features the precision you need for successful outcomes on patients of all sizes. Yet they are 85% lighter than conventional metal trocars.

- ⦿ Lightweight instruments make exchanges easy
- ⦿ Matte finish provides added stability
- ⦿ Comparable weight to disposable trocars with a lighter proximal end for improved handling
- ⦿ Easy to clean, simple to assemble
- ⦿ Reusable trocars mean cost savings to you

KARL STORZ trocars are available in a range of lightweight sizes for both pediatric and adult patients as well as obese patients, enabling you to choose the optimum instrument for every patient.

ORDERING INFORMATION

PART NUMBER	DESCRIPTION
11603GK	Trocar, 2.5mm x 4cm, with pyramidal tip, with insufflation stopcock, for use with telescopes, size 2mm
30114GK	Trocar, 3.5mm x 5cm, with pyramidal tip, with insufflation stopcock, for use with telescopes, size 2mm
30114AK	Trocar, 3.5mm x 5cm, with blunt tip, with insufflation stopcock, for use with telescopes, size 2mm
30117GPK	Trocar, 3.9mm x 5cm, with pyramidal tip, with insufflation stopcock, for use with telescopes, size 3.3mm
30117GAK	Trocar, 3.9mm x 5cm, with blunt tip, with insufflation stopcock, for use with telescopes, size 3.3mm
30118GK	Trocar, 4.7mm x 6.5cm, with pyramidal tip, with insufflation stopcock, for use with telescopes, size 4mm
30118GA	Trocar, 4.7mm x 6.5cm, with blunt tip, with insufflation stopcock, for use with telescopes, size 4mm
30160GZK	Trocar, 6mm x 5cm, with pyramidal tip, with insufflation stopcock, for use with telescopes, size 5mm
30160GXK	Trocar, 6mm x 5cm, with blunt tip, with insufflation stopcock, for use with telescopes, size 5mm

EXTENDED LENGTH:

30117GPM	Trocar, 3.9mm x 7.5cm, with pyramidal tip, with insufflation stopcock, for use with telescopes, size 2mm
30117GP	Trocar, 3.9mm x 10cm, with pyramidal tip, with insufflation stopcock, for use with telescopes, size 2mm
30117GAM	Trocar, 3.9mm x 7.5cm, with blunt tip, with insufflation stopcock, for use with telescopes, size 2mm
30117GA	Trocar, 3.9mm x 10cm, with blunt tip, with insufflation stopcock, for use with telescopes, size 2mm
30160GZM	Trocar, 6mm x 8.5cm, with pyramidal tip, with insufflation stopcock, for use with telescopes, size 5mm
30160GP	Trocar, 6mm x 10cm, with pyramidal tip, with insufflation stopcock, for use with telescopes, size 5mm
30160GXM	Trocar, 6mm x 8.5cm, with blunt tip, with insufflation stopcock, for use with telescopes, size 5mm
30160GA	Trocar, 6mm x 10.5cm, with blunt tip, with insufflation stopcock, for use with telescopes, size 5mm

ADDITIONAL ACCESSORIES:

30120Y	Replacement, Leaflet Valve, package of 5
7720590/3	Replacement, Leaflet Valve, package of 3

IMAGE
HD₁

Converts the optical image to a digital HD signal at the CCD sensing chip for the cleanest, sharpest images.

OR₁

Integrates virtually every OR component into a single optimized system.

PROTECTION₁

Comprehensive service, support, financing and asset protection.

THE FUTURE OF MEDICINE STARTS WITH ONE.

KARL STORZ brings you the future of medicine with products that exceed your expectations. As your single source solution, we offer one of the broadest selections of rigid and flexible endoscopes, hand instruments, insufflators, suction and irrigation devices, video cameras, illumination sources and documentation solutions.
