

THINK BIG

FOX CLINICIANS ARE CERTIFIED BY LSVT TO PROVIDE LSVT BIG® TO OLDER ADULTS THROUGHOUT NORTHEAST OHIO—INCLUDING THE GREATER CLEVELAND, AKRON, AND YOUNGSTOWN AREAS.

FOX LSVT BIG® certified clinicians are trained to deliver the research-based therapy program in the home setting to improve balance and motor functioning for people with Parkinson's Disease, stroke, and other chronic and progressive diseases. Faster walking, bigger strides, and improved balance are just a few of the positive outcomes of treatment.

FOX Rehabilitation is a private practice of physical, occupational, and speech therapists, built on the strong clinical foundation of Geriatric House Calls™. The FOX model empowers clinicians to facilitate and provide clinically excellent care to our patients, allowing older adults to achieve what they once thought impossible—optimal function to live their lives.
