

D-BLADE Ped. for C-MAC[®] Video Laryngoscopes

STORZ
KARL STORZ—ENDOSKOPE

D-BLADE Ped. Completes the C-MAC Blade Range for Pediatrics

The D-BLADE Ped. is designed to meet the needs of pediatric intubation when managing difficult airways.

- Recommended for patients weighing 22–55 lbs
- D-BLADE Ped. has been specially developed for managing difficult airways in children. This video laryngoscope blade is extremely useful for children with anatomical disorders such as Down syndrome, Crouzon syndrome and Pierre Robin syndrome.
- Compatible with the existing Electronic Module (8401X and 8402X) and the C-MAC PM Monitor (8401 XDK)
