

Betsy

Minnesotan

Wife

Mother

Backstreet Boys fan

Substitute teacher

Puzzle builder

Hockey fan

Friend

Concertgoer

Parkinson's care partner

Working together to

PUT PD IN ITS PLACE

Betsy is married to Fred, who happens to be a person living with Parkinson's disease (PwP). And, while Betsy is Fred's care partner, she does not let his diagnosis of Parkinson's disease (PD) define their marriage or let it stand in the way of the many things they like to do as a couple.

Betsy's and Fred's story, and thousands of others like theirs, are what shape the Supernus Pharmaceuticals resolve to bring innovative therapies to the PD community.

We are proud to partner with the community to highlight the lives and loves of those living with PD—and the many ways we all strive together to help put PD in its place!
